

Paris Session 2022

Live line maintenance on ± 800 kVDC transmission line

SC B2

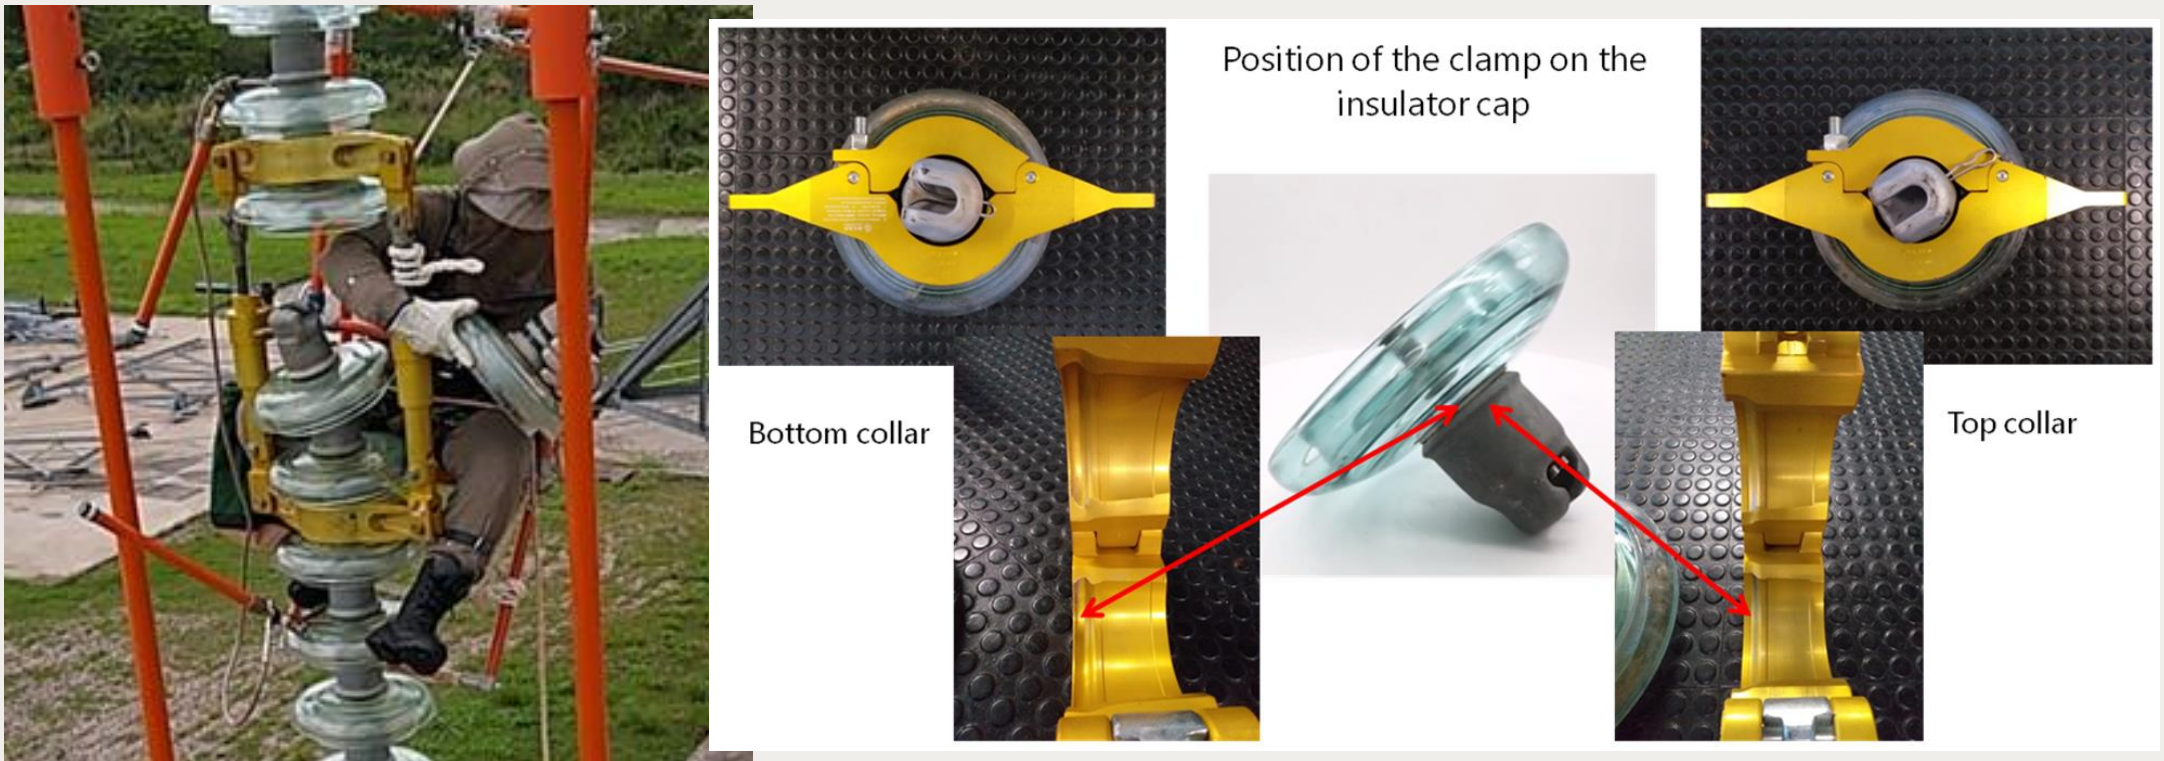

PS3 – Q3.1

José Antonio D’Affonseca S. Cardoso
BRAZIL

How to apply the clamp

- The main function of the clamp is to loosen part of the insulator string to allow the removal of the damaged insulator

Group Discussion Meeting

Advantage of applying the clamp

- The biggest advantage is the reduction of personnel during the procedure
 - Method using trolley pole
 - Method using cradle

Group Discussion Meeting
