

# Paris Session 2022

## First pilot project of STACOM plus Supercapacitors Grid-Forming

B4 - PS1 & PS3 – Grid Forming Applications  
Question S.2

Dr. Simon Sinsel, Siemens Energy

# Practical experience by intensive R&D activities

- 300MVA and the storage is designed to 200MWs
- Grid forming control with immediate response
- Protection functions for the Supercapacitor-Unit implemented control system
- Insulation coordination and type test acc. IEC standards for high-voltage applications
- Practical experience with the sub-suppliers and partners throughout the development
